

SALE OF NETWORK PARTNERS LIMITED TO MATRIX COMMUNICATIONS PLC

Consideration: Up to £12m
Client: Shareholders of Network Partners
Limited

Network Partners, established in 1999 is an independent provider and manager of telecommunications services that has partnerships with all of the UK's major operators including BT, Cable & Wireless, Global Crossing, Thus and Energis.

Langtons Corporate Finance acted as lead advisers to the Shareholders of Network Partners Limited, assisting in the Negotiation of the sale, providing Tax Planning advice with regard to the structure of the transaction and working closely with the legal advisers to implement the deal in an extremely tight timetable.

The sale of the business to Matrix Communications, retaining the management of Network Partners, now enables Matrix to offer a full range of network services whilst maintaining the highest level of expertise.
