

## ACQUISITION OF S. C. CHAMBERS & CO LIMITED BY SANDERSON MARITIME LIMITED

**Consideration:**           £not disclosed  
**Client:**                   Sanderson Maritime Limited

Sanderson Maritime was established to bring to the market the management team's considerable experience in the fields of shallow water accommodation and international barge transportation including the specialised heavy lift barge sector.

Late in 2006 Sanderson identified the opportunity to significantly develop their offering through the acquisition of Liverpool shipbrokers S.C. Chambers & Co Limited.

Langtons Corporate Finance acted as lead advisor to the management team of Sanderson Maritime, assisting in the negotiation of the acquisition with the vendor, advising on the structure of the transaction, assisting with securing the necessary finance to undertake the acquisition, and working closely with the company's legal advisers to implement the deal within the agreed timescale.

The acquisition will now support and strengthen Sanderson's commercial, brokering and consultancy activities in addition to adding another profitable revenue stream to the Sanderson Group.
